

To The Venice Golf and Country Club Foundation:

Thank you for awarding the grant to allow us to purchase blood glucose test strips for our clinic patients. The most common diagnoses at our clinic are diabetes and hypertension. Having test strips available to give to patients is a big help to our diabetics who struggle to manage their disease. Some patients need to test as often as 5-6 times daily so having the strips available is critical to them. We appreciate your ongoing support of our work.

~ Beth Harrison, Executive Director
